

GREENHILLS HISTORIC DISTRICT APPLICATION FOR CERTIFICATE OF APPROPRIATENESS

Submission of this application is required for any exterior change to a building or its property that is located within the Greenhills Local Historic District **PRIOR TO SUBMITTING AN APPLICATION FOR A BUILDING PERMIT**. Please see the attached map for the District Boundaries.

Within the District Boundaries:

- Only exterior alterations are subject to review.
- The main concern is what is visible from a public right-of-way.
- Regular maintenance items such as in-kind repairs do not require review.
- Paint colors are reviewed if a change in color is proposed.
- Existing conditions may stay. Restoration to original conditions is not required. However, if an existing element does not conform to the guidelines, it may remain or be repaired. If it is removed, that element should be reviewed as a new application and restoration to the original appearance should have priority.
